Portfolio: [Anvesha Khandelwal](#)

EDUCATION

Dayananda Sagar College of Engineering, Bangalore
Bachelor of Engineering - Computer Science and Engineering

SGPA: 9.42/10
2024 – 2028

SKILLS

Programming Languages: C, C++, JavaScript, Python
Frameworks: React.js, Next.js, Node.js, Express.js, Flask
Libraries: TensorFlow, Scikit-learn, Pandas, NumPy, Matplotlib, LangChain, LangGraph
Tools & Platforms: Git, MongoDB, MySQL, Vercel, Supabase Google Colab, PostgreSQL, Jupyter Notebook

EXPERIENCE

Career Line Coaching Center

Developer : React.js, CSS, Node.js, Express.js, MySQL

- Developed full-stack management system serving **500+** students with fee tracking, attendance, and timetable features reducing admin work by **70** percent.
- Built secure role-based portals using JWT authentication enabling teachers to manage records and students to view academic progress, currently handling daily operations for **30+** teachers and **500+** students.

PROJECTS

LocalPlus | *Python, FastAPI, Redis, PostgreSQL, JWT Auth, REST APIs, LLM Integration, Docker*

[GitHub](#)

- * Built a multi-tenant SaaS backend with FastAPI + PostgreSQL, supporting **50+** businesses with JWT auth and role-based access control.
- * Designed an AI Business Health Score engine scoring across 5 metrics, improving decision accuracy for **100+** simulated business scenarios.
- * Automated invoice parsing with OCR + LLM extraction, cutting manual data entry time by **70%**.
- * Used Redis caching and Celery to reduce average API response time by **40%**.

VoiceBridge | *RAG, Deep Learning, LangChain, Whisper, Python, Flask*

[GitHub](#)

- * Built a real-time voice translation platform using Whisper ASR + LLaMA3, supporting **15+** languages.
- * Implemented a RAG pipeline with FAISS + sentence-transformers, improving Q&A retrieval accuracy by **30%**.
- * Deployed on Render with auth, SQLite history, PDF export, and CI/CD, handling **100+** test sessions.

BookMyStay | *HTML, CSS, Node.js, JavaScript, MongoDB*

[GitHub](#)

- * Developed a full-stack accommodation booking platform with dynamic stay listings, structured data (name, price, location, availability), and an end-to-end booking flow.
- * Implemented date-selection and booking confirmation logic in JavaScript to ensure accurate, conflict-free reservations.
- * Designed a responsive, intuitive UI for browsing and booking stays seamlessly across devices.

ACHIEVEMENTS & INVOLVEMENTS

- **DSA:** Solved over **150** algorithmic problems across LeetCode, InterviewBit, and GeeksforGeeks, strengthening problem-solving and data structures & algorithms skills.
- **Achievements:** Selected for the **ACM Summer School on Systems for ML** at **VIT Vellore**.

Ciesta 4.0 | *Tailwind CSS, Javascript, Node.js, PostgreSQL*

[GitHub](#)

- * Built and deployed the official website for CIESTA 4.0, DSCE's Computer Science fest, enabling smooth event discovery and participant registrations through a responsive and user-friendly interface along with an admin dashboard for real-time registration tracking and data management.

CERTIFICATIONS

CPP Programming: Infosys Springboard
Python Programming: Infosys Springboard
